“I work at VG and got to know Dottie during the last almost three years of working there. Due to her hearing loss, Dottie would have her radio turned up quite a bit with gospel and worship music playing as she'd rest in her room. I would always feel relief when i knew i would be working on her hall. Because of the music that would be playing, she had indirectly helped me grow closer to God on my own ways. For that, i thank you, Dottie. I hope you're no longer in that pain as you walk with Jesus, hand in hand.”
