“ *"Garrett & I send our condolences to the entire family. I served on the PLVCA BOD with Paul and was at 1st meeting inspired by his gentle spirit, calm appraisal of any situation that came up. I also enjoyed talking with Paul about our amazing Lord & Savior. Paul took his last breath on earth and his next breath in Heaven. I will miss saying hello as I passed the condo on my daily walks... I can still see him sitting on the front porch. Shalom"*

“ *"Luann, So very sorry for your sudden and tragic loss! What a gentle giant Paul was! Attempted to call you, phone disconnected. Knocked on door several times, not home. Would love to bring you dinner. Wishing you God's blessings for peace and comfort. Hope to connect with you soon, my friend! Judy Alderink"*

“My condolences to the family. The "quiet personality" is what I remember from first meeting Paul. I thought he didn't like me. But, I believe I was wrong. I work at Kawasaki in Grand Rapids, now reside in Texas. I would run into Paul when he would visit the office. Always was very kind and I know KMC appreciated him. All my best, very sorry for your loss.”

“Paul was a friend and mentor to me. He exemplified the "open door" policy for people to stop in to talk about anything, whether it be work, kids, or sports. Paul always had time for you. I will miss him dearly.”

“I worked with Paul at KMC in California, and one thing I'll always remember about him was his calm, cool demeanor. Everyone else could be running around like chickens with their heads cut off, but Paul was always the rock. He'd figure out a solution, no muss, no fuss. The world needs more people like him and He'll be missed.”
