“ Bobby my dear friend.I remember all the good times as you followed me and the band to gigs all over the Mid West.I thank you for your money donation to help us record in Grand Rapids our first 45. Wow a vinyl 45, those were the days.I so happy I got you into Thermotron that summer, you made a great career out of my introduction. I had a blast working there in the summer when I was off from Holland High and then Hope College.I just today found out of your passing, so sad, but so happy your in a better place. You lived your life giving selflessly, so I know you are in Heaven with Jesus.I spoke with you last early on 2017, I was hoping to get up your way and visit you and Warren, but I was struggling with cancer treatments that year and did not make it.Regardless you know that me and The Gut Bucket Blues Band made it all over the world to the big stage, you always had encouraging words, thank you my kind easy going friend and God's Speed.See you again someday!!!”

“ *"Great Holland High School memories of Bob! He was our basketball team manager. Always there for us. I recall when I was benched for less than stellar performance, Bob would be there for me with a towel and some water and a kind and encouraging word. Not much not to like about Bob."*
