She was my favorite teacher. She was one of the few teachers i know actually cared. She made sure each and every one of us understood what we were learning, and wouldn't give up till we got it. I spent a lot of time in her classroom, just sitting there with my friends and messing around. but i'm so thankful that she let us. Miss Geurink was the best teacher, no matter how many times she denied it, she really was. I'll miss her, and so will we all.

I haven't known her long but she gave me so much encouragement and confidence when I met her in our support group. She was truly and advocate, a bright light of positivity when facing the worse and her presence is deeply missed. 💕💕

“ She was such a light in this dark world full of dimmed souls. I am glad to say that she was my teacher, a role model, someone I could really look up to in my times of need. I feel privileged to have been able to call her my teacher throughout middle school. Miss geurink, you were the nicest most charismatic person ever, and you always knew what to say. I hope that you are happy, and are no longer in pain. One day, we will meet again. Until that day comes, rest in paradise. you deserve it. I wish I had the chance to say this in person, but I love you miss geurink, I appreciate everything you've done for me. You went over and beyond for me to make sure that I had made it through middle school. You helped me figure out who I am as a person, and I want you to know that I'm doing well in life now. You were like a mother to me, I love you so much. Rest easy.

With lots of love,

“ My Favorite memory was when we first started class you would always say good morning class, "it's hot in here I'm gonna turn on the fan if thats ok" and I would always say go ahead it doesn't bother me. She had such a kind and soft heart, she would always help with my work, mental issues, and also help me understand what she was teaching us kids. She will defintely be missed in our hearts. Sincerely Taylor William Burrows.

“ I met Ms. Sarah Geurink last year, when I spent some time at the school working with a student...
My time with her, and in her classroom, was occasional and brief...
But, it didn't take long at all for me to get a sense of who she was as a teacher, and a person...
Her passion and dedication for her work and her students was immediately apparent- and she was a key contributor to the success of the case I was working on...
Sometimes...it's less about the amount of time that one has, and more about what one does with that time that matters most...
Based off of what I have heard, seen, and experienced of Sarah- I'd say that she most definitely used her time wisely, and is a source of inspiration to all...most especially, to the kids who have been fortunate to call her "Ms. Geurink."
